### Women Who Wear Well.

It is astonishing how great a change a few years of married life often make in the appearance and disposition of many women. The freshness, the charm, the brilliance vanish like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change, ignorance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage and motherhood. Many neglect to deal with the unpleasant pelvic drains and weaknesses which too often come with marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness.

As surely as the general health suffers when there is derangement of the health of the delicate womanly organs, so surely when these organs are established in health the face and form at once witness to the fact in renewed comeliness. Nearly a million women have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. Ingredients on label—contains no alcohol or harmful habit-forming drugs. Made wholly of those native, American, medicinal roots most highly recommended by leading medical authorities of all the several schools of practice for the cure of woman's peculiar ailments.

For nursing mothers, or for those broken-down in health by too frequent bearing of children, also for the expectant mothers, to prepare the system for the coming of baby and making its advent easy and almost painless, there is no medicine quite so good as "Favorite Prescription." It can do no harm in any condition of the system. It is a most potent invigorating tonic and strengthening nervine nicely adapted to woman's delicate system by a physician of large experience in the treatment of woman's peculiar ailments.

Dr. Pierce may be consulted by letter *free* of charge. Address Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

## Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments must be combined. One is local, one is constitutional, but both are important, both essential

Dr. Shoop's Night Cure is the Local.
Dr. Shoop's Restorative, the Constitutional.

The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood ailments.

The "Night Cure", as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, eases nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—as a general tonic to the system. For positive local help, use as well

### STORY OF WRONGED WOMAN.

Marie Balasi told between sobs Saturday in the Harlem Police Court to Magistrate Whitman how and why she on July 3 shot Harry Stern in his room in New York and wounded herself. She told how Stern had won her love while they were working together in a restaurant and promised to marry her, but when he became prosperous sought to discard her.

"When he would not marry me to right the wrong he had done me I sued him for breach of promise. This was more than a year ago, and the suit is still pending," she said.

"I had him arrested after bringing this suit, and then he promised again to marry me and I dropped the charge. He told me to come to his home, where the ceremony would be performed. I did, and we were married in what I afterward learned was a mock ceremony. A friend of his pretended to be a clergyman, and another friend signed a fictitious certificate. Later they burned this certificate."

She told how Stern had given her a valuable diamond ring, set with three fine stones, two of which she was to have reset for earrings and the other made into a betrothal ring. He promised, she said, to make a home for her.

"Instead of doing this he had me arrested and charged that I had stolen the ring and the earrings," she went on. "I was forced to pay a lawyer $50—all the little savings I had in the world. When I was taken to court the magistrate would not entertain a charge against me and advised me to prosecute him. But once more he pleaded with me and again I was deluded.

"He got me to go to a disreputable hotel and live with him. I remained there as long as I could bear it—a week, I think—and when I went away he said he would have me arrested if I ever bothered him again. He told me the marriage had been a farce.

"He knew then, Your Honor, what my condition was and that he alone was to blame. So on July 3 last, when I was penniless and desperate, I went to his home and gained admission to his room. I said to him then that he must marry me to save me from shame and disgrace. He replied: "Go hang yourself—that is the best thing for you to do."

"I became wild then. I don't remember much what happened. I—"

The Magistrate held the woman without bail. She was very weak, and as she coughed her lips were red with blood.

### DEFIES BONAPARTE.

Denouncing Attorney General Bonaparte, Maj. Spencer F. Cosby and all government officials who have rendered opinions adverse to the interests of Glen Echo, Md., the members of the town council of that municipality last night enacted an ordinance reducing the speed limit to six miles an hour, and empowered Mayor Garrett to issue warrants for the arrest of 165 automobilists who have forfeited their collateral by not appearing for trial.

Defiantly Mayor Garrett scored the opinion of the Attorney General, characterizing it as a "senseless conglomeration of absurdity." And the town council, with an equal display of determination to meet all issues that may arise, supported him unanimously in every contention.

At the conclusion of his address, Mayor Garrett announced that the town was about to embark upon a campaign that would mean either salvation or destruction.

Eight autos went up the Glen Echo road yesterday and four came down again. The other four were stopped by Marshal Collins. Only eight braved the wrather of Mayor Garrett, where hundreds sped over the roads on other days. The citizens of Glen Echo slept peacefully in their hammocks undisturbed by the siren whistles and chugging cars. Of the four autos stopped the occupants of three were discharged and one fined.

### HIS MIND WAS WRECKED.

Harry G. Laws, 37 years old, of Lawrenceburg, Ind., and for many years a teacher in southern Indiana, has been declared of unsound mind and will be transferred to the Central Indiana Hospital for the Insane. When Mr. W. J. Bryan came into prominence as a presidential candidate in 1896 Laws was one of his ardent admirers. After the campaign he obtained all Bryan's speeches and began the task of memorizing them. That he accomplished so well that he could repeat them without leaving out a word. The strain gradually told upon his mind. He persisted, however, in his self-appointed task till his mind finally gave way. For more than a month Laws has been repeating Bryan's speeches day and night, and there is not one which he does not know from beginning to end.

### Wise Counsel from the South.

"I want to give some valuable advice to those who suffer with lame back and kidney trouble," says J. K. Blankenship, of Beck, Tenn. "I have proved to an absolute certainty that Electric Bitters will positively cure this distressing condition. The first bottle gave me great relief and after taking a few more bottles I was completely cured; so completely that it becomes a pleasure to recommend this great remedy." Sold under guarantee at E. ### PETER PAN THE WINNER.

James R. Keene's Peter Pan set the seal on his greatness by winning the twelfth running of the Brighton Handicap of $25,000 at Brighton Beach Saturday. Responding to Notter's call he shook off the lion hearted Montgomery, wore down the light footed and lightly weighted McCarter, and won by a neck in the fast time of 2:03 3-5 for the mile and a quarter. This was within four-fifths of a second of the American record of 2:02 4-5 made by Broomstick when he beat Irish Lad a head in the same stakes in 1904. Peter Pan, by winning the Brighton Handicap yesterday, takes his place among the illustrious horses which have won $100,0000 or over on the American turf. In winning six out of nine stakes this year he has won $85,240, which, added to the $29,310 he earned last year, brings his grand total up to $114,550.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

MONDAY EVENING, JULY 15, 1907.

AFTER more than a year and a half of investigation and digestion, the Interstate Commerce Commission has made public the results of the "Harriman inquiry." In the report Mr. Harriman is scathingly condemned for his "indefensible finance" in the scandalous Alton deal, where he and his associates made a profit of $32,000,000 out of the recapitalization and then took a 30 per cent. dividend from the proceeds of a bond sale, and is charged with having planned to acquire control of every foot of railroad property in the United States but no recommendation is made with regard to prosecution of Mr. Harriman or suit for dissolution of his system, That is left to the President. The members of the Interstate Commerce Commission concur unanimously in the report, which was written by Commissioner Lane, but but it is understood that there is a division of opinion among them as to whether Mr. Harriman can be prosecuted. Therefore they merely render a report of their investigation, and send copies of it to the President and to the Attorney General. The report shows what has been the Harriman policy. This was—and apparently is—to buy a railroad, reorganize it, recapitalize it, issue bonds, and use the money so raised to buy another railroad. This railroad in turn to be reorganized, recapitalized and mortgaged for more money to buy more railroads, ad infinitum, or until, in the fulfilment of the imperial plans in the brain of Harriman, he should have beneath his jealous sway every railroad property between the Canadian border and the Mexican frontier. According to the report of the Interstate Commerce Commission:

Mr. Harriman may journey by steamship from New York to New Orleans, and thence by rail to San Francisco, across the Pacific Ocean to China, and, returning by another route to the United States, may go to Ogden, Utah, by any one of three rail lines, and thence to Kansas City or Omaha, without leaving the deck or platform of a carrier which he controls and without duplicating any part of his journey.

The conclusion drawn by the commission is that the joining of the Southern Pacific and Union Pacific has resulted in stamping out transcontinental and transpacific competition in the carrying trade. The recommendations are that a railroad corporation's business should be confined to transportation and it should not invest generally in the securities of other carriers; that a railroad is acting unlawfully and against public policy in acquiring control of parallel and competing lines; and that the time has come for legislation to control the issue of securities by railroads engaged in interstate commerce.

THE SCENES last Saturday night in Roanoke are calculated to bring the blush of shame to the cheeks of all law-abiding Virginians. Mob law, it seems, was in evidence nearly all night, the mayor, police justice and other officials having in the meantime been set at defiance, insulted and assaulted. The trouble is said to have originated over a five-cent sandwich, which resulted in wanton attacks on shops conducted by Greeks. About one thousand persons participated in the disorders. The spirit of lawessness seems to be pervading the entire civilized world and the distemper is gradually pervading the Old Dominion. In the face of the present order of things, the query, "Whither are we drifting?" is pertinent.

ADMIRAL YAMAMOTO said Saturday: "I want to impress on the editors of newspapers that they cannot be too careful what they write about the two countries. I want to impress on them that they must understand the conditions of the two countries thoroughly before they write. There are many sensational newspapers in both America and Japan and it is a pity that they do not understand conditions before they attempt to write." This is a deserved rebuke, says the Philadelphia Record, well meant and courteously put. "Understand before you write" is a good motto for newspaper men.

THERE WAS another attempt to kill a French President yesterday. In June, 1894, President Carnot was murdered by an anarchist, since which time there have been five unsuccessful attempts to stay the heads of the republic of France. President Fallieres yesterday, like his predecessor, Loubet, escaped the assassin's bullets.

## From Washington.

[Correspondende of the Alexandria Gazette.]

Washington, July 15.

Failure of the Interstate Commerce Commission to recommend prosecution against Mr. Harriman and his railway system may have misled some people, but not so the Harriman lobby which has been maintained here the past year. It was more active today than usual, in endeavoring to ascertain when and not whether, prosecution will be begun. Although, Mr. Harriman is held responsible in the report for the maintenance of the combinations and other bad practices, there is still a radical difference of opinion in certain circles as to whether criminal prosecution can be begun against him. This question will be decided upon whether his appearance upon the witness stand in hearings held by the commission has granted him immunity. High officials of the government believe that the violation of the act of June 20, 1874, in which the Central Pacific was gobbled up, can be legally fastened upon him.

A careful analysis of the mild-mannered style of expression in the report of the commission, on the results of its eight months' investigation, shows Mr. Harriman charged with these offenses:

Elimination of competition in transcontinental and oriental trade between the Union and Southern Pacific;

Control directly seventeen per cent of the stock of the Santa Fe system, and divided traffic;

Restrains combination between his system and the San Pedro route;

That the Illinois Central is a competing line with the Chicago & Alton which is jointly controlled through stock ownership by the Union Pacific and Rock Island and is manifestly a competing line with the Rock Island;

That Harriman dominates the Illinois Central; and that the joint control of the Alton by the Union Pacific and Rock Island "has undoubtedly eliminated competition between the Alton and Rock Island between Chicago, St. Louis and Kansas City;"

That officers or agents of the Union Pacific, Central Pacific, and Western Pacific are guilty of a misdemeanor, punishable by a fine of $1,000 and not less than six months in prison for failing to operate them as independent lines and free from any discrimination;

That the purposes and policy of the Union Pacific have been those of Harriman, "who exercises powers that are well-nigh absolute;"

That the Harriman policy has been to gather under one head all existing trans-continental lines so as to exclude competitors;

That if the policy is permitted to continue, it must mean suppression of competition.

Resenting a recent criticism of the efficiency of the Atlantic fleet under his command, Rear Admiral Robley D. Evans declared today that he would match it in drill against any foreign navy, whether in peace evolutions or war evolutions. "From the commander-in-chief down to the enlisted men," he says, "efforts are being made to keep the Atlantic fleet up to the highest standard of efficiency. Battle plans have been worked out in detail and not only the division commanders of the fleet, but the captains of every ship are prepared to drill against any one, whether in play or in earnest. Judging from a careful reading of the reports of the maneuvers and drills of all the navies of the world, it is my opinion that the work done by the Atlantic fleet compares favorably with that of any other fleet under any other flag." Referring to criticisms of alleged defects in some of the vessels of the U. S. navy, Admiral Evans continued: "No one has yet constructed the perfect battleship. This country, though, has come as near to accomplishing that as any country in the world. Fewer mistakes have been made by our naval constructors than by those of other navies. Quite recently, in the British parliament for instance, it was frankly declared that out of a total of about seventy battleships, only 36 were considered able to go into the line of battle. The remainder are to be stricken from the navy list. The proportion of obsolete ships in our navy is nothing like that. Without desiring to discuss the patriotism of those who have chosen to point out to the world defects known to exist in some of our ships, it may be well to call attention to the fact that if foreign critics are to be believed, other navies have defects quite as vital. We are endeavoring to remedy ours as soon as possible after they have been apparent in actual service."

Rev. Edward Everett Hale, the Chaplain of the United States Senate, has set high church Washington by the ears by his free handed criticism of ecclesiasticism. In a recent New England address before the Free Religious Association of America, Dr. Hale said: "I will not say 'curse it,' because it is wrong for a clergyman to say such words, but if it were a man of the world he would say that this ecclesiasticism prevents all the forward look, which, if I may be permitted to say it in an assembly like this, characterized the day of Pentecost and Whitsunday. Aggressive christianity, aggressive religion—that is what they ought to be after, but what they are after is the ecclesiasticism of their own particular sect." He declared that of the two or three church conventions held in this city, weekly, nearly all of them assemble simply and absolutely to preserve the continuity of that conference and to report that the people of North Podunk, in the sub-conference of the northern States, or in the sub-conference of the southern States, have presented a thimble to the wife of the minister of North Podunk, or have shingled the meeting house in South Podunk."

A satisfactory construction has been put upon the law providing for the repayment of the government's loan of $1,000,000 to the Jamestown Exposition Company by the Treasury officials, and it will give them a fortnight more time in which to make the first payment. The first installment on the debt is not to be paid today, as was the general impression, but on the last day of the month.

The completion of the press association consolidation was announced this morning. By arrangements just completed the Publishers Press Association, the Scripps-McRae Press Association and the Scripps News Association become one concern under the name of the "United Press Associations." The United Press Associations, incorporated under the laws of the State of New York, at Albany, secured by purchase, after some negotiations, all the franchises, contracts and other assets and obligations of the three associations which together controlled practically all the existing press association business in the United States outside of the Associated Press. The new United Press starts business with 460 newspaper clients of which 400 are evening newspapers and 160 Sunday morning newspapers. It is not intended to serve morning papers, but to make the United Press the best and greatest news agency in the world for evening newspapers and Sunday newspapers.

The War Department confirms the arrest at San Diego of a Japanese spy and the excluding of another from Mare Island navy yard. The report came this afternoon in official form from General Funston. It has been turned over to the State Department. Acting Secretary of War Ainsworth says the Japanese arrested at Fort Rosecrans was acting in a suspicuous manner in the neighborhood of one of the principal works. He was detained and searched, and, although he had a memorandum pad in his pocket, he had apparently taken no notes. He appeared to be a waiter, and was sent back to San Francisco. The other Japanese was simply hustled off the marine reservation. No further action is expected.

Julius L. Brown, a practicing lawyer of Atlanta, Ga., who had been attending the Knights Templar convention at Saratoga, reported to the police of the Tenderloin station in New York Saturday night that he had been robbed of $12,000 worth of stickpins and $180 in money by a girl whom he met on Broadway that afternoon. Mr. Brown, who is sixty years old, said that he struck up an acquaintance with the girl and she invited him around to her apartments at 152 West 37th street. Three women were arrested and most of the valuables were returned. They were found in the cellar of a house occupied by colored people. Brown is years old, and has a wife and daughter. It was said by some acquaintance of Edwards, the colored man arrested, that the latter was a 33d degree Mason of the colored order. Brown was also a thirty-third degree Mason. Neither was observed to make the high sign to the other in court.

### ATTEMPTED ASSASSINATION.

The national fete in Paris yesterday was marred by a dastardly attempt on the life of President Fallieres by Leon Maille, a naval reservist of Havre, who, it is believed, is suffering from the mania of persecution. Maille fired two shots at the President, but did not hit him. He was at once placed under arrest.

On account of the activity of the anti-militarists, who tried to organize a demonstration against the army throughout France yesterday, exceptional precautions were taken to safeguard President Fallieres. The attempt on his life occurred on Avenue des Champs Elysees while the President was returning to the palace from Longchamps, where he had reviewed the garrison of Paris in the presence of 250,000 enthusiastic people.

Premier Clemenceau and M. Lanes, the President's secretary, were with the President in his landau, which was escorted by a squadron of cuirassiers. The carriage had safely emerged from the Bois de Boulogne, where the anti-militarists had stationed themselves with the intention of hooting the soldiers, and was descending the broad Champs Elysees amid the acclamations of the crowds thronging the sidewalks, who were shouting "Vive Fallieres!" "Vive l'Armee!" when at the corner of Lesueur street, Maille from the curb fired two shots point-blank at the President in quick succession. No one was hit.

President Fallieres was cool and collected when the cortege stopped. The diplomats who were following the President's landau alighted from their carriages and hurried to the side of M. de Fallieres. Finding that nobody had been injured, by the President's orders the cortege moved on.

In the meantime two policemen seized Maille, who made no resistance, but the police, with difficulty, prevented the irate crowds from lynching the prisoner until a cordon of reserves came up and conducted him to the station. There Maille refused to give any reasons for his act, saying:

"The revelations I have are so grave and serious that I will only make them before a magistrate for transmission to the chief of State. It is a matter between the government and me. I am the victim of many villainies."

Some of the witnesses of the shooting said that Maille fired in the air. It is believed that the man participated in the recent seamen's strike, and that his mind had been unhinged by fancied grievances.

Outside of Paris the antimilitarist plans for a general demonstration yesterday were a dismal failure, but collisions between the police and the workmen at Toulon and Montpellier were directly due to their inspiration. At Brest the police were forced to occupy the Labor Exchange in order to prevent trouble.

### RIOT IN ROANOKE.

Nine Greek resturants, three Greek shoe-shining places and two Syrian shops, located on Salem and Railroad avenues and Nelson and Jefferson streets, Roanoke, were wrecked by a mob that had its own way in the street for several hours Saturday night. The trouble began about midnight, and continued until 3:30 yesterday morning. The proprietor of the Belmont, a Greek restaurant on Salem avenue, and an American customer quarreled over five cents and a fist fight followed. The American left the place, reported the occurrence to his friends and the party returned to the place and bombarded it with bricks, demolishing the windows, doors, lights and some of the dishes.

The Greeks fired a number of shots through the door, but none took effect. While the crowd was gathering a man covered with blood was brought from another section of town to a physician's office, directly opposite the restaurant, and the crowd, believing this man had been hurt by the Greeks, grew more boisterous. Sergeant of Police Overstreet, with two patrolmen, tried to quiet the crowd, but were powerless. The bombardment continued. Police Justice John Randolph Bryan arrived on the scene and ordered the arrest of a man. When the police attempted to make the arrest they were warned to let the man alone. Justice Bryan, with a drawn revolver, said he would kill the first man that assaulted a policeman. The police released the man they were arresting.

Later Mayor Cutchin arrived and begged the mob to disperse. By this time there were 1,000 men in the streets and the mayor's words were greeted with hoots, these being punctuated with brickbats and rocks, which were hurled at the executive and at the restaurant across the avenue. The mayor was struck on the legs and bruised, but he continued to mingle in the crowd and plead with the people to go home. Finally he ordered a fire alarm sent in and a fire company rushed to the scene. As the engine and wagons passed through the streets the firemen were stoned and Chief Engineer Waggoner was so badly hurt that he is walking on crutches.

When the hose was unwound there were loud cries of "Cut the hose!" and "Shoot him!" the later remark being aimed at the firemen. One man stuck a knife in the hose, but he was driven off by the big stream of water that was played on him. Stones continued to fly through the air and Police Justice Bryan and Policeman Manning, Overstreet and King were struck. Sergeant Overstreet was knocked senseless by a rock that hit him back of the ear. A number of men arrested by the police were rescued by their friends.

After the fire engine arrived in front of the Belmont restaurant the mob scattered and soon glass was crashing in several directions.

The mob proceeded through Salem avenue, smashing the front of every building occupied by Greeks. Then it went into Jefferson street, where two big restaurants and a shoe-shining place were wrecked, the plate mirrors that covered the walls being demolished. Eggs, fish and dishes were thrown into the street. The crowd then went on Railroad avenue, where one Greek place was smashed. Next they visited a Greek shop on Nelson street and wrecked that. Every Greek place in town, except two large confectionary stores, which are conducted separate from restaurants, was demolished.

Half a dozen Virginia Military Institute boys offered Mayor Cutchin their services, and they were armed with riot guns and placed in the street near the jail to guard the prison while men arrested were being lodged in jail.

The victims of last night's disturbance have employed counsel to look after their interests, and have already lodged complaint with the Greek consulate at Washington.

Mrs. Preston Gibson, of Chicago, stepdaughter of Thomas Nelson Page and a neice of Marshall Field, has been granted a divorce.

## Today's Telegraphic News.

### An Aeronaut's Terrible Experience.

New York, July 15.—Suffering intense pain from terrible burns received 3,000 feet above the earth, when, shot from a cannon attached to a balloon, his clothing caught fire, but glad even to be alive, Eugene Raymond, an aeronaut, is slowly recovering today after what almost proved to be a fatal aerial trip.

Clinging to the trapeze of his parachute although his flight toward the earth only fanned the flames into a fiercer blaze, Raymond was able by sheer grit to save his life. It is not believed his injuries will prove fatal.

So high up in the air was Raymond when the accident occurred that few of the thousands of spectators of his ascension from Hillside Park, N. J., knew anything had gone wrong until today. The flames had burned themselves out before the aeronaut landed.

An error in touching the wrong spring in the cannon in which Raymond made the ascension was responsible for his awful experience. Raymond and the parachute were inside the "cannon" which took the place of a basket attached to the balloon. A heavy spring was arranged to shoot him out of the cannon, and as he left it another spring would discharge a load of powder creating the illusion that it had actually blown him out of the cannon. Raymond struck the powder spring first. The explosion fired the clothing about his feet. Fearing the parachute would catch fire if he shot the other spring, Raymond was forced to endure the pain until he safely set himself free.

For several hundred feet as he dropped the flames flared up around his body, Then they burned out. Enduring awful pain Raymond clung to the bar until he touched ground.

### Ready to Strike.

New York, July 15—"The mine is laid. All that remains is to touch off the fuse." This statement was given out today at the headquarters of the local organization of the Commercial Telegraphers where the signal for a strike is momentarily expected. "The whole local situation is in the hands of the board of strategy. That board is never in action only when a strike is inevitable," said Secretary McInerney today. "You may realize what we expect when I tell you the board has been in continuous session since Saturday night. Within five minutes after the flash comes from 'Frisco twenty-six hundred men will have left their keys in greater New York, and they represent ninety per cent of the force. "We have completed an arrangement with the linemen and they are ready to give us every assistance as soon as we ask it. We believe both big systems will be entirely tied up."

Chicago, July 15.—There is slight probability that a strike of the local telegraphers will be called today in Chicago. An important message from President Small is expected today by Secretary Russell. Whether or not it will come in the form of a strike order is a question which is being generally discussed. Commissioner Neill having failed to effect a settlement between the warring parties in San Francisco, there are those in Chicago who look upon a strike in either New York or Chicago as a certainty. Secretary Russell said today that the next move in the local situation depends upon Small's message.

### Admiral Yamamoto's Visit.

New York, July 15.—Admiral Baron Yamamoto, of Japan, is inspecting the Fore River, Mass., shipyards today.

It may be only professional interest, or in view of the Japanese-American war talk, the baron may have a deeper motive, but the distinguished visitor has shown more even than the average naval officer's interest in shipbuilding methods and facilities along the Atlantic seaboard.

The baron's own words indicate that professional interests alone have led him to visit every establishment of the kind within easy reach of New York during his stay in the vicinity. His first interview when he landed in this country took the form of an appeal for peace and his last one before his departure for the north was along the same lines. The baron says he has enjoyed himself very much here and greatly appreciates the kindness with which he was received.

He and his suite left for Fore River at 8 a. m. After a tour of the Fore River shipyards they will go on to Boston, arriving there at 4 in the afternoon. From Boston they will start for the Pacific coast, stopping at Montreal, Ottawa and Seattle.

### Wholesale Arrests in Paris.

Paris, July 15.—Wholesale arrests of anti-militarist leaders are being made today as a result of yesterday's attempt by Leon Maille on President Fallieres's life.

Alienists who have examined Maille are inclined to confirm the authorities' original surmise that the man is mentally unbalanced; and that no plot existed among the anti-militarists to assassinate the president.

The attempt has caused great alarm, however, and anti-militarists' activity is blamed for arousing such popular discontent as to inspire hot-headed malcontents to plan murder.

Before an examining magistrate last night and today Maille told rambling stories of personal prosecution. He is a naval reservist from Havre. He is believed to have taken part in the seamen's recent strike and to have been crazed by the excitement of the struggle.

### The Haywood Trial.

Boise, Idaho, July 15.—More arrests are expected today of witnesses accused of perjury in testimony for both the prosecution and defense in the Haywood case.

The prosecution opened the campaign Saturday night with the issuance of a warrant for Dr. I. L. McGee, of Wallace, one of the witnesses called by the defense to impeach Harry Orchard's testimony. McGee was arrested in Spokane last night, waived extradition and will be here today to answer the accusation against him.

Attorneys for the prosecution say more warrants will follow before court adjourns tonight. On the defense's side it is said that the plan was to await the end of the trial before opening the perjury campaign, but that it is believed the prosecution is trying to influence the jury and that prompt retaliation will follow.

Orchard will again take the stand either today or tomorrow, and on cross-examination will be questioned concerning reports of insanity in his mother.s family.

The defense professes to have learned that Orchard's grandfather was a dangerous lunatic and was long kept chained in his home because there was no asylum to which he could be conveniently sent. One of his uncles, an effort will be made to show, hanged himself on account of a crime he imagined he committed.

It is expected the arguments will begin about Thursday.

Boise, Idaho, July 15.—Orchard was recalled to the stand in the Haywood to rebutt the evidence offered by the defense.

The death of the former wife occured more than a month ago, and the coroner's jury at the time returned a verdict of suicide. ### President Roosevelt and the Koreans.

The Hague, July 15.—President Roosevelt will probably be granted a respite before he is called upon to face the dilemma of receiving or declining to listen to the complaints against Japan of the Korean delegation which was refused admission to the international Peace Conference. The sudden death of one of the delegates and the serious illness in St. Petersburg of the wife of another member will delay the sailing of the Koreans on their mission of appealing to Roosevelt.

Yi Tjoune, second member of the delegation, died suddenly last night from paralysis of the heart.

Prince Tjoune Cui Yi, head of the delegation, has started for St. Petersburg, and his wife is so seriously ill there that her recovery is doubtful.

The Koreans intended sailing on Wednesday. Now the trip has been postponed. They may sail on July 24.

### Pronounced a Fake.

Oyster Bay, N. Y., July 15.—Today's papers contained a surprise for President Roosevelt. So fond has the national executive become of former General Joseph Terrell of Georgia for reproducing the home of the President's mother in the Georgia building at Jamestown, that Terrell is to succeed Carter Tate as a United States District Attorney, so the papers said under an Atlanta date line. The President had not heard of it. "It's a fake, pure and simple," said an executive office official.

### KILLED IN COLLISION.

Six persons met instant death and twenty were injured when east-bound vestibule No. 42, the New York and New Orleans limited, on the Southern Railway, collided with a switch engine one mile west of Johnson City, Tenn., at 7:30 o'clock last night.

Those killed are six colored persons who have not been identified.

The switch engine was in charge of a hostler, who, when he saw the fast passenger coming towards him at fifty miles an hour, reversed his engine and jumped to safety. Scarcely had he done so before the passenger train crashed into the light engine with frightful force.

The engine of the passenger train, baggage car, mail car and second-class coach were derailed and overturned, but the switch engine was not lifted from the rails, and with full head of steam started on a wild run, which was not ended until a switch was thrown for it and it was ditched at Carnegie.

Reports received last night by the Southern Railway say that the deaths from the wreck number from six to ten, and that the wreck was caused by the telegraph operator making a mistake in copying the train orders.

About that time he took up his residence in Washington, where he began the practice of his profession. Nine years later he moved to this city, and was soon thereafter elected Commonwealth's Attorney for Alexandria city and county. He served in that capacity for six years and during his residence here took an active part in politics. He was a most eloquent speaker and his brilliant flights of oratory are well remembered by the older people of Alexandria. Col. Most of the visitors to the ark are Washingtonians, and it is supposed that they anticipated a raid by the Maryland authorities.

Governor Warfield, of Maryland, is expected to take action against the proprietors of the alleged gambling boat this week. Should he fail to act, however, it is stated on the best authority that on next Sunday the Virginia authorities will take the bull by the horns by issuing warrants for the arrest of the captain and crew of the tugboat Bartholdi and the owner or owners of the wharf from which the boat operates for committing a nuisance in the city of Alexandria.

No two alike, but the greatest value we have ever offered at $1 and $1.50. Value $2 to $3.50.

It is quite impossible to describe these waists in detail, as there is such a variety of models, trimmings, etc., that it would be more confusing to our readers than otherwise. Suffice it to say they are splendid merchandise, both in quality and make. We advise early selection.

BALLOONIST DROWNED.

Charles Sams, 21 years old, of Battle Creek, Mich. was drowned yesterday near the Allendale resort at Gull Lake, after making a balloon ascension before a large crowd. The body of the young man has not been recovered. The first balloon ascension of the season was advertised to take place yesterday. W. E. Martin, of Battle Creek, who has the contract had secured the services of Harry Laptide, but the latter refused to go up at the last minute because his mother objected. Sams walked out of the crowd and offered to take Laptide's place. When 1,500 feet in the air the parachute was cut off by Sams and he struck the water about 300 feet from shore. Two fishermen went to the recue, but the body was not in sight.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart, or The Kidneys. Trouble of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptons only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys, as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me today for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative sold by E. S. Leadbeater & Sons.

Cured of Lung Trouble.

"It is now eleven years since I had a narrow escape from consumption," writes C. O. Floyd, a leading business man of Kelshaw, S. C. "I had run down in weight to 135 pounds, and coughing was constant, both by day and by night. Finally I began taking Dr. King's New Discovery, and continued this for about six months, when my cough and lung trouble were entirely gone and I was restored to my normal weight, 170 pounds." Thousands of persons are healed every year. Guaranteed at E. S. Leadbeater & Son's drug store.

The Doctor Away from Home when Most Needed.

People are often very much disappointed to find that their family physician is away from home when they most need his services. Diseases like cramp colic and cholera morbus require prompt treatment, and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic, Cholera and Dirrahoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life. For sale by W. F. Creighton & Co. and Gibson & Timberman.
